## **PRIMEX**

## Installation Instructions

# SOHOpro™ PR2300

Media Panel

The SOHOpro™ PR2300 Media Panel from Primex is a 23" tall (approx.) freestanding or surface-mount white plastic telecom enclosure for use inside a residence (MDU/SFU) or a business. It consists of the main cabinet, a front lid, an optional back lid, and detachable base.

It can be placed where the installer and/or homeowner sees fit within the residence due to its freestanding trait. This

includes a closet, storage room, or freestanding next to a desk in a home office. Dimensions: 17"W x 23"H x 6.5" D

Maximum load ratings:

- -Enclosure 10kg (22lbs).
- -Mounting bracket 2.5kg (5.5lbs).

UL Listing: 83GA

## WALL MOUNTED INSTALLATION

## STEP 1

Affix PR2300 on a single stud using two no. 8 wood screws in the central slots.

#### STEP 2

Install component mounting bracket(s).

- 1. Slot bracket in from the center channel of the enclosure and slide laterally.
- 2. Squeeze bracket with thumb and forefinger to adjust grip.

If using a RMK, insert key hole pin into key hole slot. Place into pre-positioned bracket.

### STEP 3

#### Install lid on base.

Holding lid from the sides handles, line up the lid with the base and press gently into place.

Pull handles outward to release the lid

### STEP 4

Secure lid with two provided plastic lockscrews using a 3/8" can wrench.
