

Nylon Cable Ties

Primex cable ties are made of durable nylon and provide secure and long-lasting cable management. Available in three sizes and two colours, these zip-style ties offer between 80 and 220N tensile strength and are ideal for organizing Cat5e/Cat6 cabling. Pair with Primex media panels for efficient cable management of all home networking cabling.

Features & Benefits

- UL-approved Nylon 66, 94V-2 provides secure, long-lasting cable restraint
- 3 sizes, 2 colours for a range of cable groupings and applications
- Zip-style fastener for quick and easy application
- Operating temperature -40°C to 85°C maintains strength in all conditions
- Installation temperature at 0°C min

Dimensions

Size: 4", 8", 11" lengths
