

Wave™ Fiber P700 NID

1 Fiber FSC-CHG1SA

The Wave Fiber P700 NID is a compact patch and splice enclosure ideal for connecting single living units or small businesses to the carrier's fiber network.

Having a protected splice location and a single SC/APC adapter for patching, the P700 NID is the perfect transition from the drop cable to the inside equipment.

FEATURES & BENEFITS

Low profile design with room for slack storage for simple FTTx splice and connect.

Snap lock and hex bolt design gives a service provider secure access 24/7.

High quality UV-protected PVC made in North America for long-lasting fiber protection in demanding weather conditions.

Dust preventing pipe grommet on the left and a flat grommet on the right provide a protected entry and exit from the P700 NID.

UL-listed and industry-standardized for easy implementation.

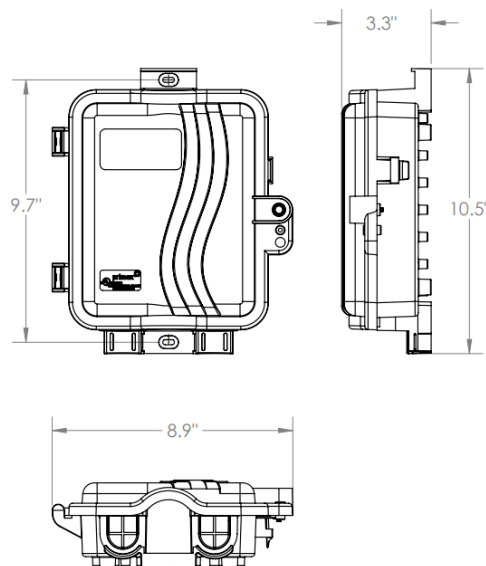

DIMENSIONS

Inside: H 7.6"/W 6.1"/D 2.5"

Outside: H 10.2"/W 8.9"/D 3.3"
