

8-Port 4-Line Voice Module w/RJ45

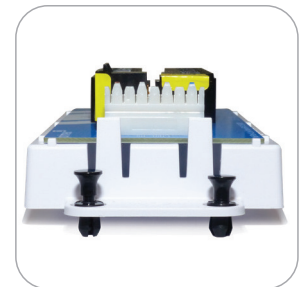

The Primex 1x8 Port 4 Line Voice Module w/RJ45 offers telephone termination points and an integrated RJ45 jack for security system line seizure. An additional test/output jack is provided.

Designed to fit in Primex Media Panels for structured wiring, the modules extend the networking functionality of the connected home in SFU and MDU applications.

Features & Benefits

- Four line voice single punchdown input with eight RJ45 jacks provide quick and easy voice distribution for pre-connectorized cable
- Easily and securely installed with four push pins
- Simplified plug and play connectivity supports applications with transferrable connections
- Fits Primex Media Panels for structured wiring (PR1500, P2100, P3000, P4200)
- Arched mounting bracket allows for cable run access
- Ideal for hospitality, health care and retirement communities where room changes are frequent
- UL/cUL Listed

Dimensions

SIZE: 6.5"L x 3"W x 1.75"H
