Product Specifications

Verge SMC

Side Mount Clip for Narrow/Deep MDE's

1. SUMMARY

The Primex Verge Side Mounting Clip (SMC) allows for Media Distribution Enclosures (MDE) to be installed into the stud via the sidewall of the enclosure.

This installation accessory works with all Narrow/Deep models of Primex MDE's (P2100ND, P3000ND, P4200ND, PR1500N).

Additionally it supports mounting tape for cable management within the MDE.

2. DIMENSIONS

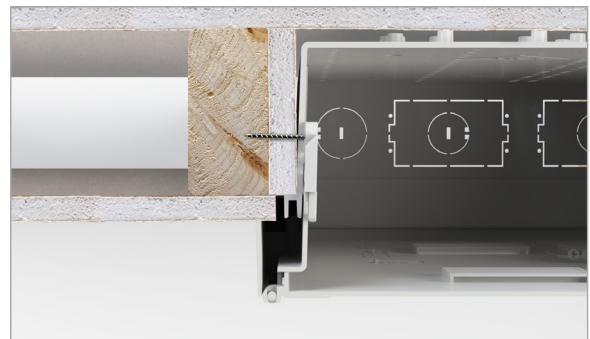

Fits all Primex Narrow/Deep model MDE's

3. FEATURES & BENEFITS

- Side Mount Clips (SMC) available for side mount installation in non-standard stud spacing.
- Fits all Primex Narrow/Deep models for ease of installation.
- Ideal for building codes requiring drywall inside stud base.
- 4 clips required for installation in P2100ND, P3000ND, PR1500N; 6-8 clips for P4200ND.
- Additional clips can be added to Narrow/Deep MDE's for cable management when used with mounting tape.
- Comes in box of 40 for on-site bulk installation.
- Includes mounting screws.
- UL-listed for heightened safety and durability.

4. CONFIGURATIONS

Part #	Part Name	Description
125-1777	SMC	Side Mounting Clips (40pc)
125-0779	UMT10	33' (10m) roll of mounting tape
125-1274	UMT3	10' (3m) roll of mounting tape

Side mounting in non-standard stud spacing ensures a secure installation.

Installed SMC for affixing sidewall to stud.

SMC fits mounting tape for cable management.
