

**NEMA4X PROVIDES SECURE, SEALED WEATHERBILITY FOR OUTSIDE APPLICATIONS**

From small cell to outdoor AV, Primex Wave NEMA4X enclosures offer a secure, sealed place to install weather-sensitive components for a range of applications. Wave NEMA4X enclosures can be used indoor or outdoor to provide a

higher level of protection for sensitive equipment against the ingress of solid foreign objects such as dirt, dust, water, and debris. They are available in a range of sizes and locking options from hex to override.

**Range of Applications:**

**SMALL CELL**

Ideal for small cell applications where weatherability is vital. Preload with fiber, splice trays and available LC/UPC adapters.

**SECURITY**

Secure, weatherable enclosure for housing security circuit boards for gates and toll booths.

**OUTDOOR A/V**

A/V in custom homes requires weatherable enclosures to store and protect PoE's, switches, and controllers.
