

SOHO Pro™ Couplers

Female to Female Jack Connectors

The SOHO Pro Coupler Keystone Jacks for Cat6, Cat5e, and RG12 connections can be used standalone, in a faceplate, or within Primex brownfield SOHO Pro Media Panels for simple, scalable plug-and-play connectivity.

These UL-Listed female-to-female keystones offer feedthrough patching, reducing installation time. They provide reliable and quick plug-and-play connectivity when used with the Primex Keystone Plate inside PR10, PR1500, and PR2300 media panels.

FEATURES & BENEFITS

Female-to-female coupler for quick and easy cable installation

Available in Cat6, Cat5e, and RG12 configurations.

Reduces SOHO Pro Media Panel (PR10, PR1500, PR2300) installation time by fast patching of components when used with Keystone Adapter plate (125-1152).

UL Listed

DIMENSIONS

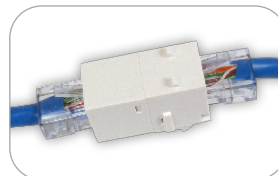

SIZE: Fits all Primex keystone jacks
