

1. SUMMARY

The Primex SpeedStar™ F81 3GHz barrel connectors are used for splicing coaxial cable drops and replacing standard-frequency connectors in wall plates.

For use with all SpeedStar™ faceplates and housings.

2. PRODUCT DIMENSIONS

SIZE: Fits all SpeedStar™ faceplates

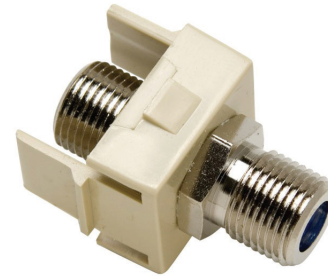

3. FEATURES & BENEFITS

- Standard F81 connectors at each end
- Broadband performance to 3 GHz

4. CONFIGURATIONS

Part #	Part Name	Description
135-0199	STAR500F-C-52	F81 barrel connector, 3 GHz, SCTE compliant, ivory
135-0182	STAR500F-C-85	F81 barrel connector, 3 GHz, SCTE compliant, white

SpeedStar™

Specifications

Insertion Loss (Max B)	5-1000 MHz	0.1 - 0.2
	1000-2400 MHz	0.15 - 0.2
Return Loss (Min dB)	5-1000 MHz	28~37 - 25
	1000-2400 MHz	24~27 - 22
RFI Shielding	5-2400 MHz	> -130dB
