

1. SUMMARY

The Primex 267 adapters ("2 for 1" or "T" adapters) are designed to connect two telephones or associated equipment items to an existing modular jack.

These adapters allow for quick connection of two devices at a single jack location without rewiring.

2. DIMENSIONS

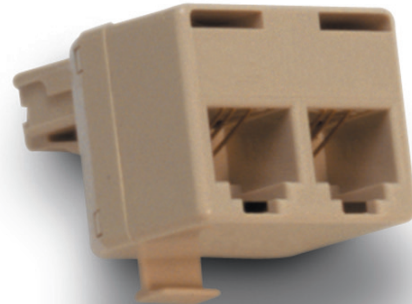

SIZE: Standard telephone plug

3. FEATURES & BENEFITS

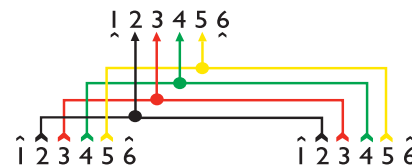

- Modifies circuitry without rewiring
- Allows multiple connections from a single modular jack
- Current/voltage: 140VDC at 2 amps

4. CONFIGURATIONS

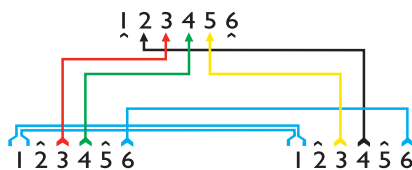

Part #	Part Name	Description
135-0313	267A4	2 for 1 inline modular adapter, 4-conductor to 4/4-conductor
135-0319	267B	Inline modular adapter, single 4-contact jack wired for termination of 2 lines
