

PRIMEX Product Specifications

SOHOaccess™ SAE-28 28" Metal Enclosure

1. SUMMARY

The Primex SOHO Access™ Enclosures provide a fast, flexible, and clean distribution management solution for wired security, voice, data, video, and audio connections. This feature-rich, ruggedized enclosure is designed to be either flush mounted between sixteen inch centered studs or surface mounted via recessed mounting holes.

2. PRODUCT DIMENSIONS

Inside: H 28" / W 14.25" / D 3.75"
Outside: H 30.3" / W 16.5" / D 4.1"

3. FEATURES & BENEFITS

- Large internal space for installation of wired active, passive, and cable management components.
- Vertical and horizontal mounting hole pattern.
- Multiple entry/exit knockouts support microduct and robust cable runs.
- Multiple cable tie attachment points offering better, cleaner cable management
- Door covers provide a knock-out for a security lock.
- UL listed for security alarm and fire signalling applications.

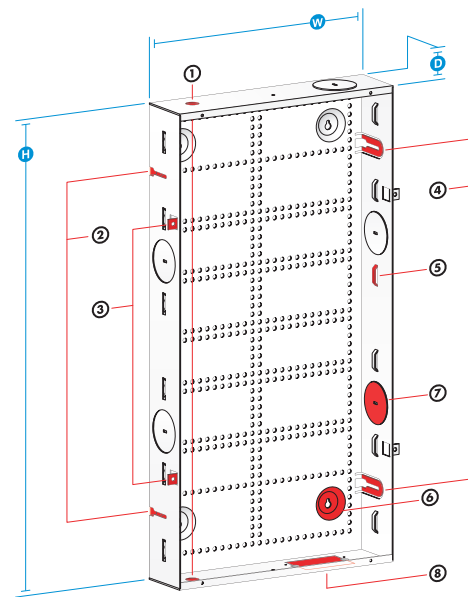

*Enclosures should not be mounted in a fire-rated wall.
