1. SUMMARY

The Primex SOHO Pro™ P3000 WiFi transparent media panel forms the centerpiece of the connected home. It provides a centralized distribution point for the components and services that make today's homes smart.

Its flexible design and selection of mounting systems provide a convenient, secure, enclosure for installing and distributing broadband and smart home services within residential premises.

The Narrow model reduces the frame width by 1" to allow side by side mounting, and corner installation.

2. DIMENSIONS

Inside: H 30" / W 14" / D 4"
Outside: H 31.8" / W 15.9" / D 4.9"

3. FEATURES & BENEFITS

- WiFi transparent, engineered plastic delivers up to 15x more WiFi pass-through than metal alternatives.
- Large internal space for installation of active, passive, and cable management components.
- Narrow frame (1" less than standard) and staggered mounting tabs for shared side-by-side stud mounting and corner installation.
- Standardized mounting hole pattern supports unique Primex Rail, Shelf, and Universal Mounting Systems for components.
- Multiple entry/exit knockouts on top and bottom support microduct and robust cable runs.
- Lightweight design allows for easy transport and installation.
- Optional key or hex locks available for enhanced security.
- UL-compliant and fire-retardancy tested for heightened safety and durability.

  *Enclosures should not be mounted in a fire-rated wall.
